**Quick Reference Guide**

### IMPORTANT!
Steps 1–4 should be performed with the device turned OFF. Once the unit has been turned ON, do not remove electrodes without first turning OFF the device.

### 1. INSERT BATTERY
Press arrow and slide battery compartment cover open. Insert 9V battery, matching the + and – ends to those in unit.

The included AC adapter may also be used as a power source.

### 2. CONNECT ELECTRODES TO LEAD WIRES
Firmly insert the red or black end of the lead wire pin (it doesn’t matter which one) into the electrode connectors.

Make sure no bare metal of the pins are exposed.

### 3. CONNECT LEAD WIRES TO TOP OF DEVICE
This unit operates with one or two sets of electrodes. When using one set, plug lead wire into Channel 1 on top of the unit. Use Channel 2 to operate a second set if directed by your healthcare provider.

### 4. PLACE ELECTRODES ON SKIN
Remove electrodes from protective backing. Keep backing to properly store electrodes after use.

Apply electrodes to the exact site indicated by your doctor or therapist. Make sure the skin at the application site is clean and dry.

See Electrode Placement Guide for more information.

### 5. TURN DEVICE ON
Press the  button in the center of the unit to turn it ON. Check that electrodes are securely placed on the skin before activating device.

### 6. SELECT THERAPEUTIC PART PROGRAM
Press the  button. Notice the flashing icon. Continue to press the  button until you reach the desired body part.

### 7. SELECT DESIRED TREATMENT TIME
Press the  button to select one of four treatment times: 15 min, 30 min, 60 min and C for continuous.

Press the  button until you reach the time prescribed by your therapist or doctor.

15 min.

### 8. ADJUST CHANNEL INTENSITY
Press the intensity control buttons for Channel 1 to increase intensity until you reach the setting recommended by your physician or therapist.

Repeat for Channel 2 if both channels are being used.

If stimulation is or becomes uncomfortable, reduce intensity and consult your physician if problems persist.

### SAFETY FEATURES
The Safety Lock Feature automatically locks the settings if no changes have been made in the panel for 30 seconds. This feature prevents accidental changes to your settings. Press the down arrow on  or  to unlock the device.

Turn off the device by pressing and holding the power  on/off button. (_unlocked device first.)

The device will automatically power off after 3 minutes of inactivity in the panel.

Low battery indicator signals when battery is low. Replace battery when stimulation feels weaker.

### PROBLEMS WITH YOUR DEVICE?
Please see pages 26 and 27 of your Intensity™ 10 Instruction Manual for troubleshooting tips.
